It was an age of fascinating leaders and difficult choices, of grand ideas eloquently expressed and of epic conflicts bitterly fought. Now comes a brilliant portrait of the American Revolution, one that is compelling in its prose, fascinating in its details, and provocative in its fresh interpretations. In A Leap in the Dark, John Ferling offers a magisterial new history that surges from the first rumblings of colonial protest to the volcanic election of 1800. Ferling's swift-moving narrative teems with fascinating details. We see Benjamin Franklin trying to decide if his loyalty was to Great Britain or to America, and we meet George Washington when he was a shrewd planter-businessman who discovered personal economic advantages to American independence. We encounter those who supported the war against Great Britain in 1776, but opposed independence because it was a "leap in the dark." Following the war, we hear talk in the North of secession from the United States. The author offers a gripping account of the most dramatic events of our history, showing just how closely fought were the struggle for independence, the adoption of the Constitution, and the later battle between Federalists and Democratic-Republicans. Yet, without slowing the flow of events, he has also produced a landmark study of leadership and ideas. Here is all the eratic brilliance of Hamilton and Jefferson battling to shape the new nation, and here too is the passion and political shrewdness of revolutionaries, such as Samuel Adams and Patrick Henry, and their Loyalist counterparts, Joseph Galloway and Thomas Hutchinson. Here as well are activists who are not so well known today, men like Abraham Yates, who battled for democratic change, and Theodore Sedgwick, who fought to preserve the political and social system of the colonial past. Ferling shows that throughout this period the epic political battles often resembled today's politics and the politicians—the founders—played a political hardball attendant with enmities, selfish motivations, and bitterness. The political stakes, this book demonstrates, were extraordinary: first to secure independence, then to determine the meaning of the American Revolution. John Ferling has shown himself to be an insightful historian of our Revolution, and an unusually skillful writer. A Leap in the Dark is his masterpiece, work that provokes, enlightens, and entertains in full measure.

"A Leap in the Dark" from Albert Venn Dicey. British jurist and constitutional theorist (1835-1922).

Jade enjoys sharing the joy and freedom she finds in Parkour through her gym, Leap. When the Dark Sons Old Ladies hire her for a private class, a hidden fantasy of hers comes true. She gets to meet her celebrity crushes, Hannibal and Ink, and wins time and tattoos from them in a bet. Ex-Rangers Hannibal and Ink do everything together from joining the Dark Sons MC to opening Dark Ink Tattoo Studio. They couldn't help but be drawn to the vibrant woman who wasn't afraid to take them on in a challenge. What they didn't know was her best friend and business partner was keeping dangerous secrets. When the Russian mob comes to collect a debt, Jade is in over her head.

Will she risk her growing relationship with the dynamic men by getting them involved in her growing problems? Will they be there to save her when she takes a leap into the dark? This is book five in the Dark Sons Motorcycle Club series and can be enjoyed independently. This dark contemporary romance has elements of danger, mystery, suspense, adult themes, possible triggers for some readers, adult content, sensual scenes and power exchange. If any of these offend you, please do not purchase.

Fay Weldon's first short-story collection features her trademark themes of feminism, sisterhood, and domestic livelihood, where the ties that bind can also draw blood Love, loss, and the ever-changing sexual battlefield are the themes of this early anthology by master storyteller Fay Weldon. In "Christmas Tree," the adulterous playwright hero embarks on a quest for true love, perhaps the most self-deceiving state of all; "Breakages" explores the fragility of married life as a miserly vicar's infertile wife contemplates his much-darned socks amid ghostly visitations; the loss of hair and female friendship are brought to poignant life in "Alopecia," while religion becomes an excuse for infidelity in "Holy Stones"; a holiday game of Monopoly reveals the widening holes in the fabric of a family in "Man with No Eyes"; and an old house and its inhabitants are haunted by doomed love in the title story. By turns humorous, ironic, and tragic, Watching Me, Watching You presents Fay Weldon at her most witty, original, and courageous.

Reproduction of the original: A Leap in the Dark by A.V. Dicey

A harrowing memoir of life on the run in Nazi-occupied Europe chronicles the adventures of a Jewish boy who escaped from German imprisonment seven times in seven years, including leaping from a train bound for Auschwitz. Reprint.
