Product Details: Dimensions (unfolded): 28 x 40.

360 pages with 89 total maps Locating original landowners in maps has never been an easy task-until now. This volume in the Family Maps series contains newly created maps of original landowners (patent maps) in what is now Newton County, Arkansas, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. What's Mapped in this book (that you'll not likely find elsewhere) . . . 7484 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 59 Cemeteries plus . . . Roads, and existing Rivers, Creeks, Streams, Railroads, and Small-towns (including some historical), etc. What YEARS are these maps for? Here are the counts for parcels of land mapped, by the decade in which the corresponding land patents were issued: DecadeParcel-count 1840s42 1850s165 1860s110 1870s268 1880s711 1890s1475 1900s2353 1910s2055 1920s296 What Cities and Towns are in Newton County, Arkansas (and in this book)? Allfriend (historical), Arbaugh, Bass, Beechwood, Ben Hur, Boxley, Carver, Cave Creek, Chancel, Compton, Cowell, Crossroad, Deer, Diamond Cave, Dickey Junction, Dinsmore, Dogpatch, Edwards Junction, Erbie, Fallsville, Flat, Flatwoods, George, Gum Springs, Hasty, Holt (historical), Jasper, Limestone, Little Buffalo (historical), Loafer, Lurton, Moore, Mossville, Mount Hersey, Mount Judea, Mount Sherman, Murray, Nail, Parthenon, Piercetown, Pleasant Hill, Plumlee (historical), Ponca, Pruitt, Red Rock, Reeves, Ryker, Shiloh, Spence Jucntion, Stoverville, Sulphur Spring (historical), Swain, The Basin, Townsley (historical), Vendor, Walnut, Wayton, Wells Creek (historical), Western Grove, Yardelle

This volume is intended to mark the 75th birthday of A R Mitchell, of the University of Dundee. It

consists of a collection of articles written by numerical analysts having links with Ron Mitchell, as colleagues, collaborators, former students, or as visitors to Dundee. Ron Mitchell is known for his books and articles contributing to the numerical analysis of partial differential equations; he has also made major contributions to the development of numerical analysis in the UK and abroad, and his many human qualities are such that he is held in high regard and looked on with great affection by the numerical analysis community. The list of contributors is evidence of the esteem in which he is held, and of the way in which his influence has spread through his former students and fellow workers. In addition to contributions relevant to his own specialist subjects, there are also papers on a wide range of subjects in numerical analysis.

Give road-weary eyes a break with this spiral-bound Large Scale edition featuring all the accuracy you've come to expect from Rand McNally, only bigger. This updated atlas contains maps of every U.S. state that are 35% larger than the standard atlas version plus over 350 detailed city inset and national park maps and a comprehensive, unabridged index. A complete update to the one and only true guide to Arkansas In this, the second edition to the only comprehensive travel guide to Arkansas, Jana Wood covers all the attractions well-known and little-known in "the Natural State." A land rich in history and nature, Arkansas is home to the only public diamond mine in the world, the first federally protected river, and the first national park. From the Ozarks to the Mississippi Delta, this book offers complete coverage of towns large and small, along with a wealth of information on local history and the state's 52 state parks. As with all Explorer's Guides, readers will also find helpful maps, food and lodging recommendations, contact information, hours, pricing, and beautiful color photography throughout. Regions include: • The Mississippi Alluvial Plain • The Arkansas River Valley • The Ozark Mountains

The 3-volume set LNCS 8510, 8511 and 8512 constitutes the refereed proceedings of the 16th International Conference on Human-Computer Interaction, HCII 2014, held in Heraklion, Crete, Greece in June 2014. The total of 1476 papers and 220 posters presented at the HCII 2014 conferences was carefully reviewed and selected from 4766 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas.
