Fly-on-the-wall is a style of documentary-making used in film and television production. The name derived from the idea that events are seen candidly, as a fly on a wall might see them. In the purest form of fly-on-the-wall documentary-making, the camera crew works as unobtrusively as possible; however, it is also common for participants to be interviewed, often by an off-camera voice.

fly on the wall an unnoticed observer of a particular situation. This expression is often used as an adjective, as in a fly-on-the-wall documentary, where it refers to a film-making technique in which events are merely observed and presented realistically with minimum interference, rather than acted out under direction.
