Get a solid foundation in insurance billing and coding! Trusted for more than 30 years, Fordney ' s Medical Insurance equips you with the medical insurance skills you need to succeed in any of today ' s outpatient settings. The 15th edition has been expanded to include inpatient insurance and billing and ambulatory surgical center billing. Updated coverage emphasizes the role of the medical insurance specialist in areas such as diagnostic coding, procedural coding, Medicare, HIPAA, and bill collection strategies. As with previous editions, all the plans that are most commonly encountered in clinics and physicians ' offices are incorporated into the text, as well as icons for different types of payers, lists of key abbreviations, and numerous practice exercises that accurately guide you through the process of filling out claim forms. In addition, SimChart® for the Medical Office (SCMO) activities on the companion Evolve website give you the opportunity to practice using electronic medical records. UNIQUE! Interactive UB-04 Form filler on Evolve gives you additional practice with inpatient Electronic Health Records. Separate chapter on HIPAA Compliance in Insurance Billing, as well as Compliance Alerts throughout highlights important HIPAA compliance issues to ensure you are compliant with the latest regulations. Separate chapter on documentation in the medical office covers the principles and rationales of medical documentation. Increased focus on electronic filing/claims submission prepares you for the industry-wide transition to electronic claims submission. Emphasis on the business of running a medical office and the importance of the medical insurance specialist prepares you for your role in the workplace. Detailed examples of potential situations throughout text signal you to be attentive to these types of occurrences. Specialized icons throughout text alert you to the connections and special considerations related to specific topics that medical insurance specialists need to be aware of. Procedures clearly outline in step-by-step format detail common responsibilities of the medical insurance specialist. SimChart® for the Medical Office (SCMO) application activities on the companion Evolve website add additional functionality to the insurance module on the SCMO roadmap. Key terms are defined and emphasized throughout the text to reinforce your understanding of new concepts and terminology. NEW! Expanded coverage of inpatient insurance billing, including diagnosis and procedural coding provides you with the foundation and skills needed to work in the physician office, outpatient, and inpatient setting. NEW! Expanded coverage of Ambulatory Surgical Center (ASC) billing chapter provides you with the foundation and skills needed to work in this outpatient setting. NEW! Updated information on general compliance issues, HIPAA, Affordable Care Act and coding ensures that you have the knowledge needed to enter today's ever-changing and highly regulated healthcare environment.

Gain real-world practice in insurance billing and coding! Corresponding to the chapters in Fordney's Medical Insurance, 15th Edition, this workbook provides realistic, hands-on exercises that help you apply concepts and develop critical thinking skills. Study tools include chapter overviews, key terms, chapter review exercises, and case study assignments. Additionally, this workbook helps you develop a better understanding of the differences among the insurance programs when completing and electronically transmitting the 837 P or the CMS-1500 paper claim. Key terms and abbreviations lists at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Performance objectives make learning easy by highlighting what you need to accomplish in each chapter. Study outlines focus review by listing key points for each chapter. Self-study exercises – including matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions – help you practice important concepts. Critical Thinking Assignments in the form of short, real-world vignettes prepare you for working in a real medical office and allow you to apply theory learned from the textbook. NEW! Expanded coverage of inpatient insurance billing, including ICD-10 coding and CMS provides you with the foundation and skills needed to work in the physician office, outpatient, and inpatient setting. NEW! Ambulatory Surgical Center (ASC) billing chapter provides you with the foundation and skills needed to work in this outpatient setting. NEW! Updated information on general compliance issues, HIPAA, Affordable Care Act and coding reflects changes to the main text.

Get hands-on practice in medical insurance billing and coding! Corresponding to the chapters in Fordney's Medical Insurance and Billing, 16th Edition, this workbook provides realistic exercises that help you apply concepts and develop the critical thinking skills needed by insurance billing specialists. Review questions reinforce your understanding of your role and responsibilities, and assignments ask you to complete claim forms by extracting information from patient records and properly selecting procedural and diagnostic codes. Not only will you master the CMS-1500 and 837P claim forms, but you will understand each stage of an insurance claim. Self-study exercises reinforce your understanding with matching, true/false, multiple-choice, mix and match, and fill-in-the-blank questions, as well as critical thinking assignments. Key terms and abbreviations at the beginning of each chapter provide a quick reference to the health insurance terminology you need to know. Study outlines focus your review by listing the key points for each chapter. Performance objectives make learning easier by highlighting what you need to accomplish in each chapter. Critical Thinking assignments are based on short, real-world vignettes, preparing you to work in a real medical office and allowing you to apply theory learned from the textbook. Updated mock fee schedules present the latest information available, for use in completing forms and activities. Expanded coverage of inpatient insurance billing includes ICD-10 coding and CMS coding, ensuring that you are prepared to work in healthcare facility settings as well as the physician ' s office and outpatient settings. Updated information on general compliance issues, HIPAA, the Affordable Care Act, and coding reflects changes to the Fordney's Medical Insurance and Billing, 16th Edition text. Ambulatory Surgery Center chapter provides the foundation and skills needed for billing in this outpatient setting. NEW! Additional procedures provide more practice, helping you remember the material.
