Awakening in a bleak landscape, Cass Dollar vaguely recalls enduring something terrible. Having no idea how many days—or weeks—have passed, she slowly realizes the horrifying truth: her daughter, Ruthie, has vanished. And with her, nearly all of civilization. In a broken, barren California, Cass will undergo a harrowing quest to get Ruthie back. Few people trust an outsider—much less one who bears the telltale scars of a Beater attack—but she finds safety with an enigmatic outlaw, Smoke. The volume provides a field-analytical methodology for researching knowledge-based sociopolitical processes of transnationalization. Drawing on seminal work by Pierre Bourdieu, we apply concepts of practice, habitus, and field to phenomena such as cross-national social trajectories, international procedures of evaluation, standardization, and certification, or supranational political structures. These transnational phenomena form part of general political struggles that legitimate social relationships in and beyond the nation-state. Part 1 on methodological foundations discusses the consequences of Bourdieu ' s epistemology and methodology for theorizing and investigating transnational phenomena. The contributions show the importance of field-theoretical concepts for post-national insights. Part 2 on investigating political fields presents exemplary case studies in diverse research areas such as colonial imperialism, international academic rankings, European policy fields, and local school policy. While focusing on their research objects, the contributions also give an insight into the mechanisms involved in processes of transnationalization. The volume is an invitation for
