Uruguayan writer Eduardo Galeano has described U.S. and Latin American culture as continually hobbled by amnesia[unable, or unwilling, to remember the influence of mestizos and indigenous populations. In Mestizos Come Home! author Robert Con Davis-Undiano documents the great awakening of Mexican American and Latino culture since the 1960s that has challenged this omission in collective memory. He maps a new awareness of the United States as intrinsically connected to the broader context of the Americas. At once native and new to the American Southwest, Mexican Americans have "[come home]" in a profound sense: they have reasserted their right to claim that land and U.S. culture as their own. Mestizos Come Home! explores key areas of change that Mexican Americans have brought to the United States. These areas include the recognition of mestizo identity, especially its historical development across the nineteenth and twentieth centuries; the re-emergence of indigenous relationships to land; and the promotion of Mesoamerican conceptions of the human body. Clarifying and bridging critical gaps in cultural history, Davis-Undiano considers important artifacts from the past and present, connecting the casta (caste) paintings of eighteenth-century Mexico to modern-day artists including John Valadez, Alma López, and Luis A. Jiménez Jr. He also examines such community celebrations as Day of the Dead, Cinco de Mayo, and lowrider car culture as examples of mestizo influence on mainstream American culture. Woven throughout is the search for meaning and understanding of mestizo identity. A large-scale landmark account of Mexican American culture, Mestizos Come Home! shows that mestizos are essential to U.S. national culture. As an argument for social justice and a renewal of America's democratic ideals, this book marks a historic cultural homecoming.

What is a detail? How is it different from xijie, its Chinese counterpart? Is "reading for the details" fundamentally different from "reading for the plot"? Did xijie xiaoshuo, the Chinese novel of details, give the world its earliest form of modern fiction? Inspired by studies of vision and modernity as well as cinema, this book gazes out on the larger world through the small aperture of the detail, highlighting how concrete literary minutiae become "telling" as they reveal the dynamics of seeing and hearing, the vibrations of the mind, the complexity of the everyday, and the imperative to recognize the minute, the humble, and the hidden. In a strain of masterpieces of xijie xiaoshuo, such details play a key role in pivoting the novel from didacticism towards a capacious modern form. Examining the Chinese detail as both a common idiom and a unique concept, and extrapolating it from individual works to the culture at large, reveals under-explored areas of the Chinese novel: its psychological depths, its connections with other genres and forms, its partaking in Chinese material life and capitalist modernity, as well as repressions and difficulties surrounding its reception in national and international contexts. With carefully chosen case studies, Xiao's book not only exemplifies the value of deep reading in approaching complex works of Chinese fiction as world literature, it also throws light on the aesthetics and politics of "the unseen," which has become central to a humanist tradition that flows across literature, cinema, and other art forms.

A transporting and illuminating voyage around the globe, through classic and modern literary works that are in conversation with one another and with the world around them *Featured in the Chicago Tribune's Great 2021 Fall Book Preview * One of Smithsonian Magazine's Ten Best Books About Travel of 2021* Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard University's department of comparative literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel Prize winners Orhan Pamuk, Wole Soyinka, Mo Yan, and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways in which the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh perspective on enduring problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat, as well as the patriarchal structures within and against which many of these books' heroines have to struggle|from the work of Murasaki Shikibu a millennium ago to Margaret Atwood today. Around the World in 80 Books is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.
